

**POLICY TYPE: Infrastructure Services**

**POLICY TITLE: District Resource Allocation**

---

Responsible Administrator: Vice President for Infrastructure Services

Location of Related Procedures: Office of Vice President for Infrastructure Services  
Office of Director of Finance

All resources received by the district are subject to allocation by the district during the budgeting process. Amounts received for enterprise fund user fees are considered as revenue of that enterprise fund. Amounts received for restricted grants, gifts, and trust and agency funds (including student supplemental fees) are not subject to budget allocation. Recycling proceeds and vending machine and telephone commissions are directly apportioned as stated in the fiscal procedures.
